School Accountability Report Card
Reported Using Data from the 2015–16 School Year

For The Winston School

Address: 215 Ninth St.
Principal: Dena Harris

Phone: (858) 259-8155
Grade Span: 5-12

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC Web page at <http://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or LCAP, see the CDE LCFF Web page at <http://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest Web page at <http://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

Throughout this document, the letters DPL mean data provided by the LEA, and the letters DPC mean data provided by the CDE.

School Description and Mission Statement (School Year 2016–17)

Mission: The Winston School inspires hope and success in bright, creative students who have struggled to realize their potential.

The Winston School offers an academic program for students in 5th-12th grade. Students in the 5th- 6th grade are placed in Lower School. The students study academic subjects in one room with a teacher. They leave the room for elective classes such as Physical Education and Art. Academic classes are geared to individual student's needs. One student may be in grade 2 math, while another may be in grade 6.

Middle students change classes every period of the day. They generally take four academic classes, an elective, and an activities/assembly period and tutorial. High school students take a similar schedule, but have two electives. Class offerings follow fairly traditional patterns. Nine years ago the school began offering an Honors English class. The population of students includes students who need to be challenged academically while accommodating their learning differences. One class is offered a year, alternating between Honors English 11 and Honors English 12. When there are enough qualified students, an Honors English 10 is offered as well. Students may take the A.P. English Literature Exam in the spring. The school has assisted other students to prepare individually to take other A.P. exams such as A.P. U.S. History and A.P. World History.

Many students receive DIS services from counselors, speech and language therapists and/or occupational therapists. About 50% of the students receive counseling, 45% Speech and Language services and 40% receive Occupational Therapy. DIS providers attend weekly staff meetings and coordinate regularly with teachers, often providing support within the classroom. DIS providers work with the faculty to minimize disruption to student's schedules.

There are a wide variety of ways that students are encouraged to be involved. The school encourages staff to plan field trips. The activities period allows students to participate in a variety of activities such as leadership, community service, yearbook, music, role-playing games, scrap booking or cooking. Students have continued to be involved in the Del Mar community through volunteer work and participating in the local art show. Weekly assemblies have brought in outside speakers or showcased student performers. Through the WorkAbility program, students can receive pre-employment training and the possibility of a job placement. Other activities such as a Prom, Talent Show and GradNite at Disneyland for seniors are held every year. The Mentoring Club pairs older students with younger or newer students. This group has been successful in helping new students make a transition to Winston as well as providing a forum for students to develop leadership skills.

A. Conditions of Learning

State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- **Statewide assessments** (i.e., California Assessment of Student Performance and Progress [CAASPP] System, which includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. The CAAs

have replaced the California Alternate Performance Assessment [CAPA] for ELA and mathematics, which were eliminated in 2015. Only eligible students may participate in the administration of the CAAs. CAA items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with significant cognitive disabilities); and

- The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study

The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard on the CAAs divided by the total number of students who participated in both assessments.

Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

Career Technical Education Programs (School Year 2015–16)

Narrative provided by the LEA

Winston offers a variety of programs and classes that focus on career and work preparation. In the 9th grade the activities are in the Psychology and English classes. Students are engaged in activities that identify strengths, talents and interests. They are introduced to Career Café. Some activities include creating a pocket resume and researching volunteer opportunities. In 10th grade activities/lessons are in English and World History classrooms. They include grooming, work place safety, employee guidelines, etc. They also begin to explore some of their high interest career areas. In 11th grade activities include mock interviews and research on levels of education to reach career goals. In 12th grade in math and Economics classes units focus on money management, housing costs, transportation and other transition skills. Optional classes that engage in extensive preparation for a job search are also offered. Additionally students work individually with Workability I staff in preparation for a job search to review applications, interviewing, appearance and grooming and employer expectations. Group activities included student field trips to see different kinds of positions available in a marine lab and in a hotel. At school assemblies career speakers ranged widely from a poet, an alumna that released an album, alumnae discussing their college experience to an FBI agent. Students also had opportunities for job shadowing and internship experiences. Electives include Digital Media, Advanced Digital Media, Music and Advanced Music and Art and Advanced Art. Built into each of these classes are not only ties to the community but also career exploration. The Winston staff meets yearly to revise the pre-employment lessons/activities across all high school grade levels.

School Safety Plan (School Year 2016–17)

Narrative provided by the LEA

The Winston School staff members have CPR-First Aid certification. The school has a defibrillator and all staff are trained to use it. Both the Student Handbook and the Policy and Procedures Manual outline guidelines pertaining to student safety and well-being. The local Sheriff's department reviewed the school's crisis management and safety plan. In addition to child abuse and sexual harassment policies, there are fire, earthquake and emergency procedures and a Crisis Management Plan. Fire and earthquake drills are held regularly. Emergency supplies of food and water are maintained. Communication among staff and between staff and administrators focuses on creating and supporting a safe learning environment.

Professional Development

Narrative provided by the LEA

The primary areas of focus for professional development to assist staff in designing and delivering curriculum to our students.

Winston has offers both on-campus and off campus professional development opportunities. There are five days of in-service training before school begins. There are weekly faculty meetings. Often at faculty meetings there is a short training. There are at least 3 half day in-services during the school year.

The school sponsors Conversation Series/Public Awareness events open to staff, parents and the community. These have included:

JANUARY 2014

Harvey Hubble Discussion and screening of his film “Disleksia: The Movie” at Cathedral High School with SD Branch of the IDA

Deisy Boscan, Ph.D/Psychologist and Sandy Ansari, MA, Educational Therapist: The Twice Exceptional Student” Gifted with a Learning and or Social Emotional Disability:

Dayon Higgins, Director of Parents Advocating Together

Parents Advocating Together (PAT) is a non-profit formed by parents for the purpose of helping families that have children with disabilities and special needs. PAT provides information, educational and emotional support to parents as they navigate to better understand their children’s rights. PAT and has been able to provide peer support in Special Education and Regional Center issues from birth through adulthood.

The staff is offered opportunities to attend trainings off-campus. These trainings have included one-day trainings offered by Learning and the Brain, attendance at the local branch of the International Dyslexia Conference and a Barton reading training. Staff who attended the Learning and the Brain workshops led workshops at faculty meetings where they shared information from the trainings. Additionally many staff attended the NACAC (National Association for College Admission Counseling) Conference in 2015, the Lynn College Transition Conference in 2016. Staff also hosted a workshop in the fall of 2016 with Henri Picciotto (Math Education Consultant and curriculum developer) where they worked on Math Manipulatives. Winston Staff were also trained on Think Cerca during a workshop, with "Think Cerca" advisors, that was held at The Winston School during In-Service week in August of 2016.
